**MY FIAT 510 RESTORATION** is missing some of the correct instruments. The speedo is correct, but the clock should have the same bezel as the speedo (the one in the photo is from a 501). Also, both the ammeter and the oil pressure gauges are from a 501. The correct ones are very similar - just bigger. Both the ammeter and the oil pressure gauge should fit into a 65mm dia. hole. Can anybody help? Happy to swap, if that helps. Ph 022 025 9924 **MEM CANTERBURY**
